JOSHUA MAINA

Cybersecurity Analyst | IT Support Engineer

+254-790-611760 | joshuamaina83@gmail.com | LinkedIn: joshuamaina | GitHub: joshmainaa7 | Nairobi, Kenya

EDUCATION

BSc Information Technology, KCA University — Second Class Upper Division 2020 - 2024

PROFESSIONAL SUMMARY

Cybersecurity analyst and IT support professional with a Bachelor's in Information Technology and hands-on experience in SIEM monitoring, incident response, web application penetration testing, and digital forensics. Proven track record in securing client infrastructure, resolving L1/L2 incidents, conducting CIS Benchmark reviews, and deploying security awareness programmes. Skilled in threat detection, log analysis, server hardening, and Python automation.

PROFESSIONAL EXPERIENCE

Cybersecurity Analyst | Foresight Tech Group Nov 2024 - Present

- Investigated and resolved Level 1 and Level 2 security and infrastructure incidents, achieving a 90% first-contact resolution rate without escalation.
- Monitored client environments using Wazuh SIEM and Rapid7 InsightIDR, performing log analysis, alert triage, and root cause identification to reduce mean time to resolution.
- Led web application penetration tests, digital forensic investigations, and CIS Benchmark configuration reviews across client infrastructure (see Client Engagements).
- Hardened Linux servers and endpoints, managing SSH configurations, host-based firewalls, and access control policies.
- Deployed and administered KnowBe4 security awareness training campaigns for multiple client organisations.
- Validated API security and data integrity using Postman and Python scripts; authored security documentation and incident response procedures.

IT Help Desk Intern | Foresight Tech Group May 2024 - Nov 2024

- Triaged and resolved hardware and software issues for local and remote users, minimising downtime through proactive monitoring and patch management.
- Documented incidents and remediation steps in JIRA; collaborated on cross-functional IT security projects.

Data Annotator | CloudFactory Mar 2023 - May 2024

- Annotated and audited large-scale datasets with 99%+ accuracy, maintaining high-quality outputs for machine learning models.

CLIENT ENGAGEMENTS

- **Roamtech:** Performed web application penetration test on e-commerce platform, led digital forensic investigations on machines involved in fraud cases, deployed KnowBe4 phishing simulations and security awareness training.
- **Karen Country Club:** Conducted CIS Benchmark security audit across Windows Server and Fortinet firewall infrastructure, delivering hardening recommendations and remediation roadmap.
- **Pula Advisors:** Deployed and configured Wazuh SIEM for continuous security monitoring and threat detection, served as primary security and technical support contact.
- **KCB Group:** Deployed and configured KnowBe4 security awareness training platform across the organisation.
- **Zembo (Uganda):** Deployed onsite for infrastructure security assessment and technical support engagement.

PROJECTS

- **Nmap-Python Network Scanner:** Python tool on Kali Linux for automated network reconnaissance and port scanning.
- **AI-Powered Recon Tool:** Web recon tool powered by an AI agent for automated attack surface mapping.
- **Bug Bounty Research:** Authorized security assessments on HackerOne, identifying SSRF, IDOR, and LFI vulnerabilities.
- **Python Encryption Suite:** Custom scripts for password cracking and file encryption using cryptographic algorithms.

TECHNICAL SKILLS

Administration: Google Workspace, Microsoft 365, User Onboarding/Offboarding
Security: Wazuh SIEM, Qualys, Rapid7, Nmap, Burp Suite, Kali Linux, Web Penetration Testing, Server Hardening, CIS Benchmarks
Tools & OS: JIRA, Postman, Linux, Firebase, SQL, Server Configuration and Management, Kubernetes
Programming: Python (scripting/automation), JavaScript, HTML/CSS
Additional: Digital Forensics, Incident Response, KnowBe4 Security Awareness Training, Technical Documentation & Reporting

CERTIFICATIONS

EC-Council Certified Cybersecurity Technician (C|CT) | Cisco Network CyberOps Associate | Rapid7 CTSA: InsightIDR & InsightVM | Wazuh SIEM: Basic to Advanced | KnowBe4 Security Awareness Training Specialist | Qualys VMDR Specialist
